Work Experience

CodSoft – Web Developer Intern (Remote)

Aug 2024 – Sept 2024

A one-month remote internship where I built and shipped several front-end mini-projects, working with HTML, CSS, and JavaScript under real deadlines and a structured review process.

- Developed responsive UI components and landing pages with cross-browser compatibility using HTML, CSS, and JavaScript.
- Delivered task-based work iteratively, incorporating reviewer feedback to meet each deadline on schedule.

Education

Indian Institute of Information Technology, Sonapat

B.Tech in Computer Science Engineering

Aug 2023 – May 2027 | Sonapat, Haryana

CGPA: 8.7

SRD Public School, Agra

Class XII (CBSE) – Mar 2020 – Feb 2021 | **95.2%** || Class X (CBSE) – Mar 2018 – Feb 2019 | **90.2%**

Projects

VenueVista

Oct 2025 – Dec 2025 [Live Demo](#)

A web app for discovering travel venues — users can browse listings, compare nearby hotel prices, pinpoint locations on an integrated map, and add their own venues or reviews to help other travelers plan trips.

- Built using** MongoDB, Express.js, Node.js, EJS, and Cloudinary.
- Implemented property listings, reviews, and content management.

HomieBites

Jan 2026 – Mar 2026 [Live Demo](#)

A marketplace connecting PG-seekers and meal subscribers with verified providers — includes geolocation-based search, an end-to-end booking flow, Razorpay payment verification, and separate dashboards for users, providers, and admins.

- Built geolocation marketplace with React, Express, MongoDB, JWT authentication, Razorpay payments, and geolib location services.
- Implemented property listings, bookings, and real location with map redirecting.

DivineTanyaa

May 2026 – Jul 2026 [Live Demo](#)

A booking site built for a tarot and astrology practitioner — clients can browse services, check pricing and reviews, and reserve a slot through a scheduling system that handles availability and payments end to end.

- Engineered booking platform using React, TypeScript, TailwindCSS, Express, MongoDB, Razorpay, email automation through SendGrid/Twilio, and payment processing using RazorPay.
- Built a server-side slot and blocked-date system, an admin portal for booking management, and automated email confirmations.

Skills

Frontend/Backend: React, Node.js, Express, Tailwind CSS

Databases: MongoDB, MySQL

Languages: Java, JavaScript, HTML, CSS, TypeScript, SQL

Tools: Git, GitHub, VS Code, Redux, Redux Toolkit, Cloudinary, MapBox

Deployment: Render, Vercel, Netlify

DevOps/Cloud: Docker, AWS

Achievements

- Solved **400+ problems** across platforms like [Leetcode](#) and [GFG](#).
- Gate 2026 – **Score 484, Marks 41.44**
- Certified in **Web Development (Apna College)** and **Responsive Web Design (freeCodeCamp)**.
- Hacktoberfest **Super Contributor** in October 2025.
